📍 House #210 new iqbal khan colony, Qurban line ,Gulberg lahore ○ Raja Nouman

Career Objective

Seeking a position as an Junior Backend developer where I can utilize my programming skills to develop high-quality web applications and gain valuable experience in a dynamic and collaborative team environment. I am highly motivated, detail-oriented, and committed to continuous learning and professional development in the field of software development.

Professional Experience

Trainee Backend Developer, *Developer Studio*
09/2023 – present | Lahore, Pakistan
- Collaborated with cross-functional teams to develop and maintain server-side logic, databases, and application architecture for responsive web applications.
- Wrote efficient and scalable code using JavaScript and frameworks including Node.js and Express.js.
- Assisted in debugging and optimizing code to improve application performance and security.
- Worked closely with senior developers and team leads to ensure the application's functionality, performance, and scalability.

Education

BSCS,National University of Science and Technology(NUST)
09/2019 – 07/2023

Certificates

- Scripting for Testers 🔗
- Using Python for Automation 🔗
- Supervised Machine Learning: Regression and Classification 🔗
- Introduction to Back-End Development 🔗
- Introduction to Databases for Back-End Development 🔗
- Version Control 🔗
- Django Web Framwork 🔗
- APIs 🔗
- Full Stack 🔗

Projects

AI-aided enhanced low-cost dense seismic monitoring(Final Year Project)
Created a noise reduction system for seismic wave data from a sensor, enhancing seismic analysis accuracy. Effectively eliminated noise, maintaining essential signals for a cleaner, precise seismic wave representation.

Created Backend for Resturant Management System using Django 🔗
Designed and developed RESTful APIs for meal ordering and dispatching orders to delivery personnel. Implemented user authentication and a permission management system, assigning distinct permissions to different user roles.

Hostel Management System,DBMS
Designed the ER diagram and implemented in my SQL server.

Deploy Scripts on AWS Lambda Function

Skills

Object Oriented Programming

Problem Solving **Teamwork**

Git **CSS** **Bootstrap**

Django **Node** **Express**

MySql **Mongdb**
